

FCCs' plans endanger diversity/democracy

I believe that democracy in the US is at great risk due in part to the failure of our media to keep us well-informed and its tendency to support those in power. I can't imagine how much worse things would be if we lost the few independent media voices we now have to a further corporate monopolization of our print and airways.

I strongly oppose the FCC's loosening of the few remaining broadcast ownership rules. It will certainly benefit the powerful but it will be at the expense of all of us.

Sincerely,

Margaret Hammond
